

Session VI: Innovation

Success through innovation

Dr. Amrit P. Bindra
Principal-Global Chemsultants LLC, USA

Dr. Amrit P. Bindra has the distinction of having two Ph.D.s; one in Physical Organic Chemistry from Australian National University, Canberra and the other in Synthetic Organic Chemistry from National Chemical Laboratory, Pune. He did his post doctoral research at University of Rhode Island and at Michigan State University. Along with his research he also completed MBA from Cleveland State University.

Dr. Bindra was with Day-Glo Color Corporation at Cleveland, Ohio for more than five years before he moved to Engelhard at Beachwood, Ohio in 1990. When BASF took over Engelhard in 2006 he was made Group Leader, Organic Pigments. He is a Principal, Global Chemsultants LLC, Brecksville, Ohio since 2008.

Dr. Bindra is a three-time winner of Day-Glo Color Corporation Exceptional Innovation Award. Engelhard SM&C Group bestowed on him their Exceptional Quality Award in 1994. However, his most notable award is the prestigious U.S. Presidential Green Chemistry Challenge Award for “design of safer chemicals” for the Rightfit™ Organic Pigments in 2004.

He has published more than 19 research papers in international journals and has 9 US patents.
