Huntsman International (India) Pvt. Ltd.*

Mr Anish Paliwal is currently Technical Resource Leader at Huntsman International (India) Pvt Ltd and operates from Delhi. He has been with company for 8 years and is responsible for providing technical services in all fields of exhaust processing to customers in South Asia.

Abstract:

Recent developments in 1:2 metal complex dyes will be discussed. Such dyes exhibit very good build-up on different types of polyamides and wool and are characterised by high light fastness and very high wash fastness even in deep shades. These dyes are also eminently suitable for microfibers.
